Introduction to Albertus Seba and His Cabinet

Albertus Seba (1665–1736) was a Dutch pharmacist, entrepreneur, and avid collector who dedicated much of his life to assembling a comprehensive natural history cabinet. Originally a successful apothecary in Amsterdam, Seba’s passion for natural sciences drove him to gather an extensive array of specimens from around the world, including exotic animals, insects, plants, minerals, and anatomical models. His collection was not only a reflection of scientific inquiry but also a testament to the global trade networks of the 17th and 18th centuries. Seba’s cabinet was designed to serve as both a scientific resource and a visual masterpiece. It was meticulously organized into cabinets and drawers, each housing different categories of specimens. The collection’s significance grew over time, and after Seba's death, his collection was published as Thesaurus Naturae, a multi-volume work that combined detailed engravings with scientific descriptions, making his collection accessible to a broader audience.
