When applied correctly, security settings help maintain the integrity of Durusul Lughatul Arabiyyah while still allowing legitimate use.

Password protection is commonly used to limit access to sensitive documents. Setting strong, unique passwords reduces the risk of unauthorized viewing. However, passwords should be managed carefully to avoid locking out intended users or creating unnecessary barriers.

Balancing security and usability

While security is important, excessive restrictions can negatively impact user experience. Overly strict settings may prevent legitimate users from reading, printing, or annotating documents. When distributing Durusul Lughatul Arabiyyah, it is important to balance protection with accessibility based on the document’s purpose and audience.

For public educational or informational materials, lighter security settings may be more appropriate. For confidential or proprietary content, stronger restrictions help reduce misuse and unauthorized distribution.
